REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art, either singularly or in combination.

According to the invention, the computer receives a user key comprising U bits, where $U > 0$. Creating, from said user key, a cryptographic key and encrypting the key, user data while storing the encrypted user data in a cookie and naming the cookie by assigning name data to the cookie. Sending the cookie to the computer for storage, thereby receiving the cookie from the computer and receiving said user key from the computer. Recreating the cryptographic key and extracting the encrypted user data from the cookie. Decrypting the encrypted user data and then establishing the secure state between the server and the user based on the decrypted user data.

These features are not found or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Peeso whose telephone number is 571 272-3809. The examiner can normally be reached on Mon.-Fri, 7:00 to 3:30 .
